- Basketball
- Development of personal projects

SUMMARY

Self-motivated Full Stack Developer with over a year of experience in developing modern web applications and APIs. Proficient in technologies such as React, Node.js, TypeScript, and PostgreSQL, with a focus on scalable and optimized solutions.
I am seeking a position as a Frontend Developer (React) or Full Stack Developer where I can apply my skills and work with new technologies like Next.js and TailwindCSS.
Currently based in Stuttgart, I am flexible and available for remote, hybrid, or on-site work. I am actively improving my German and English skills to collaborate effectively in international teams.

WORK EXPERIENCE

Internship as a Full Stack Developer BTS GmbH, Stuttgart,
Germany December 2024 – January 2025
Online shop development on the modified.shop platform, integrating new features and optimizing existing functionalities. Hands-on experience with PHP, MySQL, JavaScript, HTML, and CSS. Optimized database queries, improving system performance. Implemented and tested new features, ensuring smooth integration. Enhanced user experience through UI/UX improvements and bug fixes. Worked in an Agile/Scrum environment, collaborating with the development team.

Full Stack Developer Brovko, Kyiv, Ukraine
August 2023 – September 2024
Online shop development, focusing on performance optimization and feature implementation. Technologies: HTML, Sass, JavaScript, Webpack, React, Redux Toolkit, Node.js, MongoDB, Express, Git, Docker, Swagger, Trello, MantisBT, Scrum. Developed and maintained frontend components, ensuring a seamless user experience. Collaborated with designers and backend developers to implement new features and resolve technical issues. Worked in an Agile/Scrum environment, managing tasks and sprints effectively.

Managing Director, Private Enterprise, Odessa, Ukraine
January 2012 - February 2022
Managed projects focused on optimizing business processes and improving customer service. Implemented automation of key workflows, enhancing productivity and operational efficiency.

EDUCATION

IT School GoIT
Full-Stack Developer Program, March 2022 – May 2023
Technologies: JavaScript, React, Node.js, Express.js, MongoDB, HTML5, CSS3, Git.
Projects: Developed full-stack applications and responsive websites with RESTful API integrations.
Teamwork: Collaborated in Agile teams and participated in code reviews using Git.

National University "Odessa Maritime Academy"
LLM, Maritime law, Aug 2003 - Jun 2009
